

**STATE ENVIRONMENTAL POLICY ACT (SEPA)
DETERMINATION OF NON-SIGNIFICANCE**

Name of Proposal/File Number: REDMOND ROAD WIRELESS, File Number L100280

Description of Proposal:

REPLACE AN EXISTING 61' 1" PSE UTILITY PLE WITH A 70' WOOD UTILITY POLE WITH A 10' CANISTER CONTAINING 3 ATENNAS. EQUIPMENT WILL BE LOCATED IN A CABINET ATTACHED TO THE POLE.

Location of Proposal: 16800 NE 40TH STREET

Site Address of Proposal (if any):

Proponent: CADY MICHAEL

Lead Agency: CITY OF REDMOND

The lead agency for this proposal has determined that the requirements of environmental analysis, protection, and mitigation measures have been adequately addressed through the City's regulations and Comprehensive Plan together with applicable State and Federal laws.

Additionally, the lead agency has determined that the proposal does not have a probable significant adverse impact on the environment as described under SEPA.

An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. **This information is available to the public on request.**

CITY OF REDMOND

ENVIRONMENTAL CHECKLIST

Purpose of Checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the City of Redmond identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply" and indicate the reason why the question "does not apply". It is not adequate to submit responses such as "N/A" or "does not apply"; without providing a reason why the specific section does not relate or cause an impact. Complete answers to the questions now may avoid unnecessary delays later. If you need more space to write answers attach them and reference.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the City can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. When you submit this checklist the City may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of Checklist for Non project Proposals:

Complete this checklist for non-project proposals, even though questions may be answered "does not apply." IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NON PROJECT ACTIONS (part D).

For non-project actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)</p> <p>This proposal is for development of a telecommunication facility utilizing an existing Puget Sound Energy utility pole. The existing 61'1" round wood pole will be replaced with a 70' round wood pole to allow separation between the bottom of the antennas and the power lines. The power lines will be relocated at the existing height after the pole is replaced. Three Andrew TMBXX-6516-R2M antennas will be mounted within a 10' canister attached to the top of the pole. Four (4) 4" PVC conduits will be routed up the pole and will contain 12 coax cables that are 7/8" each. Equipment will be placed within two RAC35 cabinets, 35"H x 24"W x 20" D each and painted to match the pole. The cabinets will be mounted to the pole starting at about 1 1/2' above the ground. The cabinets will be landscaped with four 6' tall Emerald Green Arborvitae.</p> <p>13. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.</p> <p>The radio equipment will be located in cabinets mounted on the pole. The equipment is cooled by a air conditioner and therefore some fan noise will be created. About one trip per month is required for system maintenance. The vehicle used is a pickup truck. Some noise would result from those visits. A noise report has been prepared to measure the noise generated by the site.</p> <p>3. Proposed measures to reduce or control noise impacts, if any:</p> <p>The equipment cabinets will be screened by landscaping that will reduce the noise.
